

CAREER PROGRAM · DATA ANALYTICS

Data Analytics

From data to decisions. Turn information into impact. A career-focused program whose syllabus is rebuilt every month from real Data Analyst interviews — Excel, SQL, Python, Statistics, Power BI.

50/day

Real interviews monitored by our AI

~90%

Of interview questions come from our material

98%

Of candidates who attend interviews get placed

1 year

Unlimited live batches & recordings

5-6 MONTHS · LIVE ONLINE · BENGALURU · 2026 EDITION

EVERY PROMISE IN WRITING · EVERY CALL RECORDED & AI-MONITORED.

Most institutes teach a syllabus. We prepare you for the interview.

The problem with every other course: fixed syllabi written years ago, packed with topics no interviewer asks about — while the questions that decide your offer change every quarter. You spend months studying, then walk into interviews prepared for the wrong exam.

THE SYLLABUS ENGINE – REBUILT MONTHLY

This syllabus was not written. It was reverse-engineered.

STEP 01 – LISTEN

Our Claude-based AI monitors up to 50 real & mock interviews every single day.

STEP 02 – EXTRACT

It collects the actual questions companies are asking for this role, this month.

STEP 03 – REBUILD

The syllabus is rebuilt around real demand — you study only what's actually asked.

50/day

Real interviews monitored by our AI

~90%

Of interview questions come from our material

98%

Of candidates who attend interviews get placed

1 year

Unlimited live batches & recordings

*Based on BrowseJobs internal data. Historical figures – not a promise of individual outcome. Hiring depends on the live market and your performance.

Why Data Analytics is one of the fastest-growing careers

In a world driven by data, analytics turns information into insights and insights into impact. From healthcare to finance, retail to tech — every industry needs data-driven professionals, and the career ladder runs long.

CAREER GROWTH FLOW

Fresher → Data Analyst

Analyze data, uncover insights, create reports

Business Analyst

Convert insights into strategic solutions

Senior Data Analyst

Complex data, advanced models, key decisions

Analytics Manager

Lead teams, define strategy, deliver impact

Data Analytics Lead

Drive the vision, mentor professionals

Built for your situation. Judged on your outcomes.

SWITCHING DOMAINS?

The real, industry-grade projects you build here become the centerpiece of your CV — hands-on work in the new domain, fully genuine, fully BGV-safe.

CAREER GAP?

A structured internship with us, built around projects you actually deliver, fills your timeline with documented work. A gap is only a gap if it's empty.

FRESHER?

Earn a free internship certificate with BrowseJobs.ai — the equivalent of six months of hands-on experience before your first interview.

WHAT YOU'LL WALK OUT ABLE TO DO

- ✓ Analyze real business datasets and present insights that actually drive decisions
- ✓ Build interactive Power BI dashboards — from data modeling and DAX to scheduled refresh
- ✓ Clean, transform and explore data with Python (Pandas, NumPy) and advanced SQL
- ✓ Answer the SQL, case-study and business-scenario questions analyst interviews lead with
- ✓ Present with clarity — communication is a scored module, because analysts are judged on it

ROLES THIS PREPARES YOU FOR

Data Analyst

Business Analyst

Senior Data Analyst

BI Analyst

PROGRAM FORMAT

Duration	5–6 months
Format	Live online + recordings
Access	1 year unlimited
Projects	5 CV-ready

“We qualify you on data points, not emotions. Your mock-interview data decides when you're ready — and then the market meets you.”

— DR. KRISH BHARGAV, FOUNDER & MENTOR

The live syllabus. Rebuilt monthly from real interviews.

8 modules. Zero filler. Every topic below appeared in a monitored interview for this role — that is the only reason it is here.

MODULE 01

Data Analytics Fundamentals

The foundation, and the framing interviewers listen for.

- The analytics lifecycle: Define → Collect → Process → Analyze → Visualize → Act
- KPIs: choosing and defending the right metric
- How data actually drives business decisions

MODULE 02

Advanced Excel

Still the first tool most analyst interviews test.

- Excel functions: lookup, logical, text, date
- Pivot tables and pivot charts
- Dashboards: organize, analyze and visualize effectively
- Data cleaning in Excel

MODULE 03

SQL for Analysts

The single highest-leverage skill in an analyst interview.

- Select, where, order by, aggregations
- Joins: inner, left, right, self
- CTEs and subqueries
- Window functions — the question that separates candidates
- Group by, having, case statements

MODULE 04

Python for Analytics

The most powerful language for data analysis.

- Variables, loops, functions
- Pandas: DataFrames and structured data
- NumPy: numerical operations with arrays
- Data cleaning: missing values, duplicates, inconsistent data
- EDA: explore data and uncover hidden patterns
- Data visualization and business insights

MODULE 05

Statistics

Understand data. Uncover patterns. Make defensible decisions.

- Mean, median and central tendency
- Probability and distributions
- Hypothesis testing — assumptions and reliable conclusions
- Correlation: relationships between variables
- Regression: predict and forecast outcomes

MODULE 06

Power BI

Visualize data. Drive insights. Empower decisions.

- Data modeling: relationships and robust models
- DAX: calculated measures for deeper analysis
- Measures and visualizations
- Interactive dashboards for storytelling
- Power BI Service: publish, share, collaborate
- Scheduled refresh and automation
- Power Query for transformation

MODULE 07

Business Analytics Across Domains

Where the analysis meets the money.

- Sales analytics: performance, trends, forecasting, strategy
- Marketing analytics: campaign performance, customer behavior, ROI
- Finance analytics: budgeting, forecasting, cost optimization, risk
- HR analytics: performance, attrition, retention, workforce planning
- Customer analytics: segmentation, experience, lifetime value

Interview Engineering

The module no other institute has — because no one else monitors 50 interviews a day.

- Live question bank from monitored interviews, refreshed monthly
- Weekly technical + case-study mock interviews, AI-analysed
- Business-scenario and guesstimate drills
- Communication & confidence coaching — scored, not optional

Real projects you'll build. These go on your CV.

Not toy exercises — industry-grade work you deliver, deploy and can walk an interviewer through line by line. Fully genuine, so every candidate clears background verification.

PROJECT 01

Retail Sales Dashboard

Sales overview and trend analysis across products and regions.

Sales overview & trends

Top products & categories

Regional performance

Profit & discount analysis

PROJECT 02

HR Attrition Dashboard

Why people leave — and what the data says to do about it.

Employee overview

Attrition analysis

Department-wise insights

Experience & age analysis

PROJECT 03

E-Commerce Analytics

Traffic, revenue and the conversion funnel end to end.

Traffic & revenue overview

Customer behavior analysis

Top-selling products

Conversion rate analysis

PROJECT 04

Financial Performance Dashboard

Revenue, expense and profitability at executive standard.

Revenue & expense analysis

Profitability insights

Budget vs actual

Cash flow overview

PROJECT 05

Executive KPI Dashboard

The one-screen view a leadership team makes decisions from.

Business overview

Key performance indicators

Goal tracking

Data-driven decision making

THE STACK YOU'LL HAVE USED

Microsoft Excel

SQL

Python

NumPy

Pandas

Power BI

Power Query

DAX

Statistics

Git & GitHub

Your projects don't stop at the notebook.

Every CV-ready project in this program is deployed, not just coded. An interviewer can open it, and you can walk them through the pipeline that put it there — which is exactly the conversation that converts a project into an offer.

01

Your own cloud account

You build in a real AWS or Azure account with real IAM, real billing alarms and real limits — not a simulator.

02

Version-controlled from day one

Git and GitHub from the first commit, with branches, pull requests and review — the workflow your first team will expect.

03

Automated build & deploy

A pipeline takes each project from commit to running environment, so deployment is a repeatable step rather than a one-off.

04

Monitored and demoable

Dashboards, logs and alerts on top, plus a written architecture walkthrough you rehearse in mock interviews.

Everything included. The whole machine, from day one.

No add-on pricing for the things that get you hired. Every tool below ships with this track.

LEARN

PROVE

GET HIRED

AI Tutor — awake at 2am

Every doubt answered in seconds, in your context, from your syllabus. Students ask it hundreds of questions a course, because it never judges and never sleeps.

Live batches + recordings

Every class is live and instructor-led, then recorded and searchable by topic. Your access runs a full year, so a missed class is never a lost one.

Coding Lab

Browser-based labs with the real stack. You write, run and break things inside the LMS — no local setup standing between you and practice.

Content Hub & lesson notes

Per-lesson notes, slides and reference material, generated against the day's teaching plan and kept with the recording.

Voice Mock Lab — the interviewer that calls you

A voice AI rings your phone, runs a real technical round, and scores every answer on depth, communication and confidence. By the twelfth mock, the real thing feels like a rerun.

Weekly technical + HR mocks

Human-led mocks alongside the AI ones, AI-analysed afterwards, each returning a written gap report rather than a grade.

PRI & the mastery map

A Placement Readiness Index built from your mock data, attendance and assignments — with one clear next best action every day.

Live interview question bank

The questions pulled from monitored interviews for your role this month, organised round by round.

Quizzes, assignments & graded feedback

Scored work with trainer feedback, so readiness is a measurement rather than an opinion.

Job Radar

Live roles from LinkedIn and Naukri matched to your skill graph and refreshed daily, so the openings are already waiting when you are ready.

ATS resume, LinkedIn & GitHub

Your CV rebuilt to survive the filter, your LinkedIn tuned for recruiter search, your GitHub arranged around the projects you actually shipped.

Verifiable certificates

Every certificate carries a QR code that resolves to a public verification page. An employer checks it in one scan.

1:1 mentoring & support desk

A mentor for the career decisions and a ticketed support desk for everything else, both inside the LMS.

The placement engine. You don't apply into a black hole.

You get presented — through three channels, by our team, with your profile optimised first.

01 · **NAUKRI, DONE RIGHT**

Profile built by our team

Your CV professionally optimised and loaded on Naukri by our team — not left to you.

02 · **3,000+ HR NETWORK**

Broadcast to recruiters

Your profile shared across our network of recruiters and HR professionals actively hiring.

03 · **DIRECT CLIENTS**

Straight to hiring companies

Shared directly with our client companies hiring for this role right now.

CAREER SERVICES INCLUDED

SERVICE	WHAT YOU GET
ATS Resume Building	A resume that survives the filter and gets read by a human
LinkedIn & GitHub	Profile optimised for recruiter search; portfolio that showcases real work
Mock Interviews	Weekly technical + HR mocks, AI-analysed, with detailed feedback
Communication Training	A scored module — not an add-on. Delivery is what converts skill into offers
Interview Question Bank	Live bank drawn from monitored interviews for this role, this month
1:1 Mentoring	Personalised guidance at every step until you're hired

READINESS IS DECIDED ON DATA

We send you to interviews when your mock scores say you're ready — not when a sales target says so. That is precisely why our attend-to-place rate is what it is.

Fees that bet on you. Most of it only after you're placed.

YOUR PATH — EVERYTHING IS FREE UNTIL STEP 04

FREE • 01

Free counselling + written Career Analysis Report

Talk to us. You leave with a written report on where you stand and what to do — whether you join or not.

FREE • 02

Free live Masterclass

See the method live. How the syllabus is reverse-engineered from real interviews, and what you'd actually study.

FREE • 03

Free 7-hour Python Bootcamp

Sit a real teaching day before you decide. Seven hours of live Python — no card, no commitment.

STEP 04

Registration — ₹30,000

Only after all three free steps. EMI available: 3 × ₹10,000. Then full enrolment and LMS access.

Registration (payable only after the free masterclass + bootcamp)

₹30,000

EMI option for registration

3 × ₹10,000

Placement fee — due only after you accept an offer

First 3 months' CTC

Paid as

6 monthly EMIs from your new salary

Your ₹30,000 registration

Adjusted inside the placement fee

WORKED EXAMPLE • ₹12 LPA OFFER

3 months' CTC = ₹3,00,000 — ₹30,000 already paid = ₹2,70,000 in 6 EMIs — paid from a salary you didn't have before. We only earn properly when you do.

30-day money-back guarantee

Any reason, or no reason — full refund in your first 30 days of the program. No questions asked. Written into your agreement.

Don't trust us. Verify us.

Every institute will tell you their course is the best. So don't decide on anyone's words — including ours. Here is exactly how to check the market yourself, tonight, in fifteen minutes, for free.

CHECK 01 · 5 MIN

Count the demand

Open Naukri → search the role + your city → filter “Last 7 days” → count the postings. If hiring is real, you'll see it in the number.

CHECK 02 · 5 MIN

Read 5 job descriptions

Note the skills that repeat. Then compare them against any institute's syllabus — ours included. A syllabus that doesn't match live JDs is preparing you for the wrong exam.

CHECK 03 · 5 MIN

Pressure-test everyone

Ask every institute: will you put every promise in writing? Is your success rate defined clearly? Do you guarantee a job? Compare the answers.

What we promise — in writing

- ✓ Every commitment you get from us is in writing.
- ✓ Three full steps are free before you pay a rupee.
- ✓ The placement fee is due only after you accept an offer.
- ✓ 30-day money-back guarantee — any reason, full refund.
- ✓ Every counselling call is recorded & AI-monitored.

What we will never tell you

- ✗ “We guarantee you a job.” Nobody honestly can — the market decides.
- ✗ “We'll adjust your experience.” We never fabricate employment.
- ✗ A fixed salary promise.
- ✗ That hiring is certain, or that there's a shortcut.

QUESTIONS TO ASK ANY INSTITUTE — INCLUDING US

- Will you put every promise — fees, refund, placement process — in a written agreement?
- Is your success rate defined clearly? Ours: 98% of candidates who attend interviews, internal data.
- Do you guarantee a job? The only honest answer is no.
- Will anything on my CV be fabricated? With us: never — real projects and a real internship only.

Real stories. Real people. Real success.

★★★★★ DEVOPS

"Big thanks to Trainer Krish for being such a motivating and knowledgeable guide. Your way of teaching with real-life examples made everything so easy to understand. You're not just a trainer, but a true mentor!"

KR Sampritha

★★★★★ DATA ENGINEERING

"The course is super well-structured, covering everything from ETL processes to data storage tools. Instead of just theory, I got to work on actual data pipelines and industry-relevant case studies."

Anish Lakumarapu

★★★★★ DATA ENGINEERING

"I would like to sincerely thank BrowseJobs for their incredible support in helping me find a job. Krish Sir, you are doing a wonderful job in helping students who dream of working in the IT industry."

Saket Vaibhav

★★★★★ DEVOPS

"I recommend BrowseJobs to anyone looking to advance their career in IT. The course was comprehensive, well-structured, and tailored. My tutor was always available to clear any doubts."
