

02

Platform Capabilities

Every module that ships today, the integrations behind them, and what is still roadmap.

FOR EVALUATION

IBROWSEJOBS TECHNOLOGIES PVT LTD · 2026 EDITION

Commercial in confidence. Prepared for evaluation by the named recipient and not for onward distribution.

THE SURFACE

One platform, five product areas.

Counts below are modules present in the codebase today. Anything not yet built is listed separately at the end of this document and is never described here as available.

48

Admin modules in the LMS

25

Student portal sections

~70

CRM operational modules

51

Architecture decision records

HOW TO READ THIS DOCUMENT

Each of the next five pages covers one product area, module by module. The integrations table names whose account each third-party service runs on, because that determines who is billed for it.

SHIPPED MEANS SHIPPED

Everything in the module tables exists and is in daily use on tenant 1. We would rather lose a deal than describe a roadmap item as available.

LEARNING MANAGEMENT

Learning management

The student-facing product: 25 portal sections, all live.

MODULE	WHAT IT DOES
Curriculum & syllabus	Programs, courses, modules, topics and a day-by-day builder.
Live classes & recordings	Scheduling, Zoom licence pooling, attendance, searchable recordings.
Assignments & grading	Submission, rubric grading, trainer feedback, grade book.
Quizzes, MCQ & flashcards	Per-lesson assessment with spaced repetition.
Coding Lab	Browser-based labs on the real stack.
Content Hub & notes	Per-lesson notes, slides and reference material.
AI Tutor	Context-aware doubt resolution against the student's own syllabus.
Student pulse & check-in	Engagement signals, risk flags, daily next best action.
Certificates	Generated, QR-verifiable, publicly checkable.

PLACEMENT ENGINE

Placement engine

What turns a course into an outcome.

MODULE	WHAT IT DOES
Mock interviews	Technical and HR mocks, AI-analysed, scored per dimension.
Voice mock lab	Outbound voice AI interviews with quotas per student.
Interview question bank	Live bank built from monitored interviews, by role and round.
CV generator & vault	ATS-ready CV building, sharing and print.
Job feed & Jobs for You	Live openings matched to the student's skill graph.
Apply assist	Guided applications against matched roles.
Placement pipeline	Candidate tracking from ready to offer accepted.
Mentoring	Mentor profiles, availability, session booking and notes.

EMPLOYER WORKSPACE

Employer workspace

The hiring side of the marketplace (ADR 0051).

MODULE	WHAT IT DOES
JD builder	AI-drafted structured roles with skill extraction.
Graded shortlist	Ranked applicants with written match rationale.
AI screening calls	Auto-dialled first-round screening with transcript and outcome.
Async proctored rounds	L1, L2 and custom rounds with face-match and window flags.
Pipeline & automation	Kanban ATS with a rules engine and dry-run simulation.
Evidence & graded report	Replays, transcripts, per-rubric scores, proctoring record.

INSTITUTE CRM

Institute CRM

The operations product: around 70 controllers across the admin surface.

MODULE	WHAT IT DOES
--------	--------------

Lead management	Capture, assignment, status history, AI call analysis, batch funnel.
Campaigns	Email and WhatsApp campaigns with recipient tracking.
Admissions & enrolment	Enquiry to enrolled, with masterclass and bootcamp tracking.
Fees & finance	Fee plans, instalments, collections, dunning, revenue dashboard.
Payments	Razorpay orders, webhooks, receipts and invoice numbering.
Expenses & payroll	Expense capture, analytics, salary and incentive records.
HR & office	Leave types, balances, requests, holidays, tasks and attendance.
Users, roles & permissions	Role-permission matrix with a menu-driven access model.
Support desk	Ticketing with threaded messages and escalation.
Messaging hub	Internal chat, email inbox, notifications and push.
Social analytics	Instagram, LinkedIn and YouTube stats, posts and alerts.
Website CMS	Page copy, SEO and course-page content edited without a deploy.
File manager	Google Drive-backed document store.
Meeting intelligence	Transcript analysis and meeting reports.

PLATFORM & GOVERNANCE

Platform & governance

What makes it safe to run several institutes on one system.

MODULE	WHAT IT DOES
Multi-tenancy	Every domain model tenant-scoped by a global scope, tested for cross-tenant denial.
Whitelabel manager	Per-tenant name, logo, ten colour tokens and domain.
Feature flags & plans	Per-tenant module gating stored on the tenant record.
Audit logging	Grade changes, fee waivers, access blocks, role and roster changes.
AI gateway & telemetry	Provider-agnostic LLM layer logging purpose, tokens, cost and latency per call.
Data requests (DPDP)	Subject access and erasure workflow.
Vouchers & monetisation	Discounts, boosters and store products.

INTEGRATIONS

What it connects to — and who is billed.

SERVICE	USED FOR	ACCOUNT
Zoom	Live classes, licence pooling, recordings	Your account
Razorpay	Fees, instalments, receipts, webhooks	Your account
WhatsApp Cloud API	Campaigns, nudges, notifications	Your account
Google OAuth & Calendar	Sign-in, scheduling, Drive file store	Your account
Voice AI (Vapi / Retell)	Voice mock interviews, AI screening calls	Metered
LLM providers	Tutor, grading, syllabus, analysis — provider-switchable	Metered
Job feed (JSearch)	Live openings for the job radar	Shared or your key
Meta lead ads	Lead capture webhooks into the CRM	Your account
Email (SMTP/IMAP)	Transactional mail and the CRM inbox	Your account
AWS S3	Document, recording and render storage	Ours or yours

“Your account” means the service runs on credentials you own and is billed to you directly; we never mark those up. “Metered” means usage is measured per tenant on our account and billed on at the rate in your order form.

ON THE ROADMAP — NOT AVAILABLE YET

- **Public employer API & webhooks** — HMAC-signed webhooks and CSV/ATS import for employer pipelines.
- **Background verification** — A Trust Score from DigiLocker, PAN, education and EPFO records.
- **Semantic candidate search** — Natural-language candidate search with interpretable filters.
- **Partner-facing marketing site builder** — A themeable public site per tenant, beyond the portals.
