BROWSEJOBS PLATFORM · WHITELABEL PARTNER PACK

01

Whitelabel Overview

A whitelabel LMS, CRM and placement platform for training institutes.

[START HERE](#)

IBROWSEJOBS TECHNOLOGIES PVT LTD · 2026 EDITION

Commercial in confidence. Prepared for evaluation by the named recipient and not for onward distribution.

THE OFFER

Your institute. Your brand. Our engine.

The platform BrowseJobs runs its own institute on, delivered under your name, on your domain, in your colours. Not a demo build — the same code, the same database, a different tenant.

WHY THIS IS NOT A DEMO BUILD

BrowseJobs is tenant 1 on this platform. Everything a partner gets is something we depend on ourselves, every working day.

WHAT YOUR STUDENTS AND STAFF ACTUALLY SEE

Your brand, applied live

Branding is stored per tenant and served live at GET /api/v1/branding. A colour changed in the admin panel re-skins the portal on the next load — there is no rebuild, no redeploy and no engineering ticket.

Your own domain

Students reach the portal on your domain. Tenant resolution is by domain for public pages and by the signed-in user for portals.

INCLUDED IN A WHITELABEL TENANT

Brand name	Replaces BrowseJobs across the portal, emails and documents.
Logo	Your mark in the portal, on certificates and on generated PDFs.
Full colour palette	Ten brand tokens — primary, deep accent, ink, highlight, page, success, error, review, border and muted — applied live from the admin panel.
Your own domain	Students reach the portal on your domain, not a shared one.
Batch numbering	Your own batch code pattern rather than ours.
Feature set	Modules switched on or off per tenant, so you ship only what you sell.

EXPLICITLY NOT INCLUDED

A public marketing website	The platform provides the student, trainer, admin and employer portals. Your marketing site stays yours — scoped separately if you want us to build it.
Your course content	The syllabus engine, projects and question banks are BrowseJobs teaching material. Licensing them is a separate line, not part of the platform fee.
Your integrations' costs	Zoom licences, payment-gateway fees, WhatsApp conversation charges and AI usage are billed on your own accounts or metered — see the pricing pack.

PACKAGES

Three tiers. Three ways to pay.

Starter

A single-location institute running its first cohorts.

[SET]

Growth

An institute running admissions and placement as a business.

[SET]

Enterprise

Multi-branch groups, or institutes with their own compliance bar.

[SET]

Pricing is confirmed in writing on the order form before anything is charged. A marked field is one your account manager sets for your volume.

COMMERCIAL MODELS

LICENCE SUBSCRIPTION

A monthly or annual platform fee by tier, plus a one-time onboarding fee. Predictable for both sides, and the default.

REVENUE SHARE

A lower platform fee against an agreed share of course revenue. Suits a partner starting from zero cohorts who would rather pay as they grow.

PER-SEAT ENROLMENT FEE

A flat fee per enrolled student with no monthly minimum. Suits seasonal or cohort-driven institutes.

THE PACK

Seven documents, by stage.

You have document 01. The rest arrive as the conversation moves — a term sheet is not a first-touch document.

03

DOC	TITLE	STAGE	WHAT IT ANSWERS
01	Whitelabel Overview	First touch	What it is, who it is for, how to buy.
02	Platform Capabilities	First touch	Every shipped module, the integrations, the roadmap.
03	Pricing & Packages	First touch	Tiers, what is metered, the commercial models.
04	Feature Matrix	Evaluation	Module by tier — the contract annexure.
05	Technical & Security	Evaluation	Architecture, tenant isolation, security posture.
06	Onboarding Plan	Evaluation	Signature to go-live, and who owes what.
07	Commercial Framework	Contracting	Term sheet for counsel to draft from.

Next step: a live walkthrough.

Forty minutes, your questions, and a tenant re-skinned in your colours while you watch.
