Onboarding Plan

Signature to go-live in six weeks, and exactly who owes what.

IMPLEMENTATION

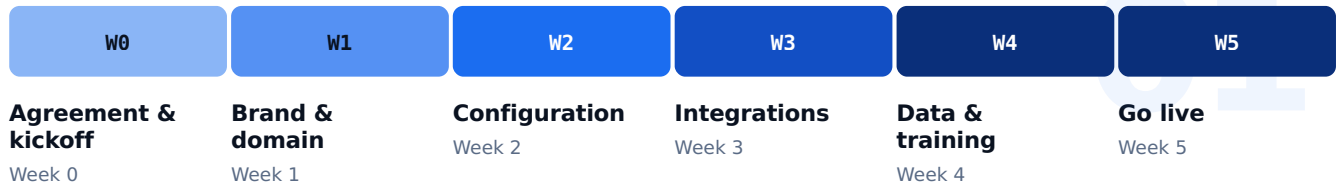

IBROWSEJOBS TECHNOLOGIES PVT LTD · 2026 EDITION

Commercial in confidence. Prepared for evaluation by the named recipient and not for onward distribution.

THE PLAN

Six weeks, if you hit your dates.

The critical path runs through what you provide, not what we build. DNS access and payment-gateway credentials are the two items that most often slip a go-live.

WEEK 0 · AGREEMENT & KICKOFF

We do

- Countersigned order form
- Tenant provisioned
- Kickoff call and named contacts

You provide

- Signed agreement
- Onboarding fee
- Named project owner

WEEK 1 · BRAND & DOMAIN

We do

- Branding applied
- Domain mapped and TLS issued
- Email sender configured

You provide

- Logo files
- Colour palette or brand guide
- DNS access
- Sending domain

WEEK 2 · CONFIGURATION

We do

- Roles and permissions
- Fee plans
- Batch numbering
- Feature flags per your tier

You provide

- Course and batch structure
- Fee model
- Staff list and roles

THE PLAN · CONTINUED

Weeks 3 to 5.

WEEK 3 · INTEGRATIONS

We do

- Payment gateway
- Zoom
- WhatsApp
- Email
- Webhook verification

You provide

- Gateway credentials
- Zoom licences
- WhatsApp business account
- Approvals

02

WEEK 4 · DATA & TRAINING

We do

- Migration of your existing students and leads
- Admin and trainer training
- UAT support

You provide

- Export of current data
- Staff availability for training
- UAT sign-off

WEEK 5 · GO LIVE

We do

- Production cutover
- Hypercare
- Handover to support

You provide

- Go-live approval
- Student communication

WHAT MOST OFTEN SLIPS

DNS access and payment-gateway credentials. Both sit on your side, both are quick, and both block go-live if they arrive in week five.

BEFORE YOU BUY

The 35-minute walkthrough.

This is the demo we run. It is here so you know what to expect, and so your team can decide who should be in the room.

02

TIME	BEAT	WHAT YOU SHOW
02 min	The problem	Their current stack: spreadsheets, WhatsApp groups, a rented LMS nobody logs into.
05 min	Whitelabel reveal	Open the admin panel, change a brand colour, reload the student portal in their colours. This is the moment that sells.
08 min	Student journey	Dashboard, live class, assignment, AI tutor, mock interview, certificate.
06 min	Placement engine	Mock scores, readiness, job feed, placement pipeline.
06 min	Institute CRM	Lead in, funnel, fee collection, revenue dashboard.
04 min	Governance	Feature flags, roles, audit log, tenant isolation.
04 min	Commercials	Tier that fits, what is metered, what happens next.

THE MOMENT THAT MATTERS

At the five-minute mark we change a brand colour in the admin panel and reload the student portal in your colours. Everything else in the demo is detail; that is the product.

Book the walkthrough.

Bring whoever runs admissions and whoever runs delivery. Forty minutes.
